## PROFESSIONAL DEVELOPER EXPERIENCE

**Web Developer**, Raleigh NC FEB 2018 - PRESENT

### *Freelance Web Developer and Designer*

Work directly with clients to create quality mobile web applications using mobile first web approach. Identify user interface issues and provide advice on user experience practices with wireframes of UI from concepts to implementation.

**Udacity.com**, Raleigh NC JAN 2018 - PRESENT

### *Student Grow with Google Mobile Web Specialist*

Securing a Mobile Web Developer certification and creating a mobile web application that is usable offline, fully responsive and leverages Accessible Rich Internet Applications (ARIA) features for 508 compliance.

**Tinsy Co**, Raleigh NC MAY 2014 - JAN 2018

### *Owner*

Started a small company that specializes in leveraging 3D technology to create one of a kind pet memorial and celebration jewelry.

**EverBank**, Jacksonville FL MAY 2012 - MAY 2014

### *Front-End Developer*

Managed and developed dynamic rate banners, sortable tables and maintained other infographics reflecting the most up to date information.

Created JavaScript features on product landing pages that provided delightful user experiences paired with high performance, security, quality, and stability.

**Zappos**, Henderson NV JUN 2012 - AUG 2012

### *Front-End Developer Intern*

Built prototypes of a customer review functionality on 6pm.com using HTML/CSS/Javascript.

## PROFESSIONAL DESIGN EXPERIENCE

**EverBank**, Jacksonville FL SEPT 2008 - MAY 2012

### *Digital UX Designer*

Created and maintained interface designs in response to creative direction, user needs, product innovation, technology, and business needs.

Created high-fidelity interface designs, motion designs and branding materials according to design specifications.

Presented design concepts to internal marketing team while communicating the logic, user data, and design-thinking used to arrive at the final concept.
